

Immunization Requirements/History International/Exchange Students and Scholars

All students/scholars who will enroll in courses and/or live on campus at the University of Maine at Farmington, must provide documentation that they have received the required immunizations. If you do not have the required immunizations or do not have official records, please have your health care provider immunize or re-immunize you prior to coming to UMF. If you are unable to do this, you will be required to receive immunizations at the UMF Student Health Center upon arrival. You will need to pay for any immunizations not covered by your health insurance. Immunizations are offered at the lowest cost possible.
